## Résumé des données

Nous avons importé et préparé les données afin de pouvoir appliquer des analyses statistiques dessus (conversion en variable catégorielle de données malinterprétées) et également pour faciliter la lecture et la compréhension (changement de noms des colonnes pour des noms plus explicites).

### ACP sur les sous catégories

On repère sur le graphique des corrélations plusieurs groupes qui semblent être faiblement corrélés en dehors des groupes, nous allons donc les étudier en les séparant.

Sous bloc 1 : Par semaine
